

# New Pot Crops to Try

*Allen C. Botacchi*  
*Cooperative Extension Educator*  
*Commercial Horticulture*

**A**re you looking for new pot plant materials to offer to your customers? There are innumerable species from which to choose, but which crop is the most profitable to grow? I doubt if anyone can honestly answer that question. It boils down to knowing your customers. Do your customers ask and look for new and/or reintroduced plant material? If the answer is yes, then I suggest that you look into the culture of some of the following:

Godetia	<i>Clarksia amoena</i> ssp. <i>whitneyi</i>
Lisianthus	<i>Eustoma grandiflorum</i>
Obedient Plant	<i>Physostegia virginica</i>
Perennial Asters	<i>Aster novi-belgii</i>
Pot Carnation	<i>Dwf. Dianthus</i> cvs.
Flowering Maple	<i>Abutilon</i>
Hibiscus Blue	<i>Alyogyne huegelii</i>
Bleeding Heart Glory Bower	<i>Clerodendron thomsoniae</i>
Double Impatiens	<i>Impatiens</i> sp.
Egyptian Starflower	<i>Pentas lanceolata</i>
Marmalade Bush	<i>Streptosolen jameson</i>
Dwf. Iris	<i>Iris</i> sp.
Potted Delphiniums-	<i>Delphinium</i> sp.
Dwf. Coreopsis	<i>Coreopsis</i> 'Zarget'
Flowering Cabbage, Kale	<i>Brassica oleracea</i> , cvs.
Mini Kalanchoes	<i>Kalanchoe</i> cvs.
Vallota	<i>Cyrtanthus purpureus</i>

One or more of these 17 crops may fill a niche in your market. Refer to the following references for the detailed culture of these newer crops.
